Re: NASPO INTERNATIONAL Meeting and Training Announcement

Dear Member:

We hope that you and your families are enjoying this, unusually cold, holiday season. NASPO Intl. is planning a Meeting in June 2023 where we will offer “Certified Security Professional” (CSP) Training as well as Re-certification for those previously certified. We have updated the curriculum and plan to offer a blend of in-person training as well as the ability to attend classes by Zoom or Teams. We believe that offering this option will allow us to reach a greater number of Security Professionals.

This training is very important right now as many have changed positions and new individuals are taking the reins in security management. Much of our focus has moved to protecting digital information through encryption and cloud storage while cyber-attacks are increasing exponentially.

We are also very involved in updating the Security Management Standard, The Minimum Security Requirements for Secure Documents Standard and are set to begin updates to the Birth Certificate Standard and the IDPV Standard. It will be crucial that we have input from all of the “Experts” that were involved at the time of the creation of these standards to update them completely.

Details of the June meeting will follow that include Dates, Location, Pricing for in-person training as well as virtual training and we will provide a link to register.

Warmest regards,

Tim Brock

Chairman
